The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/575,389	Applicant(s) JOHN ET AL.	
	Examiner MICHAEL J. FELTON	Art Unit 1791	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10 April 2006.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-44, drawn to a smoking material

Group II, claim(s) 45, drawn to a smoking article

Group III, claim(s) 46, drawn to a smoking article

Group IV, claim(s) 47, drawn to a method of making a smokable filler

Group V, claim(s) 48, drawn to a method of making a smokable filler

Group VI, claim(s) 50-95, drawn to a smokable material

2. The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature is disclosed in the prior art (see US 5, 129,408 to Jakob et al., GB 1,444,721 to Rothmans International, and US 4,625,737 to Keritsis et al.).

3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Art Unit: 1791

A single species of the composition is to be elected, one of each sub-species should be elected:

- a. Amount of foaming agent (e.g. 30-90%, 61-90%, 30-80%, etc.) (claims 4,
- b. Crosslinking agent (e.g. calcium sulphate, calcium citrate, calcium phosphate, tobacco, etc.) (claims 5-11, 14, 15)
- c. Amount of crosslinking agent (e.g. 1-11%, 1-6%, 10-60%, etc.) (claims 13, 16-19)
- d. Non-algenic foaming agent/surfactant (e.g. not present, methyl cellulose, starch, egg-albumin, etc.), (claims 20-23, 27, 28).
- e. Non-foaming cross link-able material (e.g. not present, sodium alginate, ammonium alginate, etc.) (claims 24-27)
- f. Aerosol generating material (e.g. not present, glycerol, propylene glycol, etc.) (claims 31-34)
- g. Inorganic filler (e.g. not present, zeolite, perlite, alumina, etc.) (35-37)
- h. Flavor (e.g. not present, coca, etc.) (38-40)
- i. Fibrous material (e.g. not present, tobacco, wood, etc.) (41-42)
- j. The presence of other additive (binders, carbonaceous materials, etc.) (43-44).

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims

Art Unit: 1791

subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

4. The claims are deemed to correspond to the species listed above in the following manner:

(see above)

The following claim(s) are generic: 1-3.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the common technical feature is disclosed in the prior art (see US 5, 129,408 to Jakob et al., GB 1,444,721 to Rothmans International, and US 4,625,737 to Keritsis et al.).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Art Unit: 1791

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MICHAEL J. FELTON whose telephone number is (571)272-4805. The examiner can normally be reached on Monday to Friday, 7:30 AM to 4:30 PM EST.
